PROFESSIONAL EXPERIENCE

Advanced Kiosks | Franklin, NH

Technical Support Specialist | May 2016 - Present

- Maintain infrastructure of a small office environment. Advocated upgrading aging hardware- built a network cabinet, moved file system to a RAID NAS, sourced and instituted firewall hardware and rewired office Ethernet, improving performance and reducing network issues
- Handle all customer support cases and internal technical support requests
- Support our hardware and proprietary software by beta testing, deploying and resolving bugs as they occur in field, tracking tickets using Salesforce
- Write specifications for new software and manage development of a small team of programmers. Moved team to the JIRA platform, allowing better control and accountability
- Identify, source, build and integrate prototype hardware for kiosks

Freedom Cycle | Concord, NH

Online Marketer | Feb. 2016 - June 2016

- Improved sales by creating a consistent online presence through the dealership's different online platforms including their website, Craigslist, Instagram, Facebook, using Photoshop to create professional graphics

Stewart's Ambulance Service | Wolfeboro, NH

Emergency Medical Technician | April 2013 - June 2015

- Controlled emergency and mass-casualty incidents by: identifying and requesting needed resources then planning and executing complex rescue operations. Packaged, treated, and transported patients utilizing appropriate interventions and medication administration congruent with state protocols
